### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kocovsky, Jr., on September 20, 2004.

The application has been amended as follows:

Claims 39-40 have been cancelled.

Claim 41 has been added as follows:

41. (New) A method of measuring temperature with an electronic thermometer, the method comprising:

generating a temperature measurement signal based on the temperature of an object under temperature measurement;

computing a temperature value of a digit number larger than a predetermined display digit number to be displayed on the display device (6) on a basis of the temperature measurement signal; and

controlling the display device to display a first temperature value portion and a second temperature value portion in such a manner that the second temperature value portion is not displayed while the first temperature value portion is displayed and vice versa;

wherein the first temperature value portion is defined as a portion of the temperature value having a first set of predetermined digit or digits, and the second temperature value portion is defined as another portion of the temperature value having a second set of predetermined digit or digits including all remaining digit or digits other than the first predetermined digit or digits.

Art Unit: 2859

2. The following is an examiner's statement of reasons for allowance: Claims 20-28, 30-37, 41 are allowed because the prior art fail to teach an electronic thermometer comprising a control device for controlling a display to display a first temperature value portion and a second temperature value portion in such a manner that the second temperature value portion is not displayed while the first temperature value portion is displayed and vice versa, in combination with the remaining limitations of claims 20-28, 30-37, 41.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.

Any inquiry concerning this communication should be directed to the Examiner Verbitsky who can be reached at (571) 272-2253 Monday through Friday 8:00 to 4:00 ET.
